<Artist's Statement>

I feel everything through the people.

I describe the human story through self portrait and video performance.

My work separates the past and the present.

The past talks about pain in my heart but the present describes the world that people see.

My past and present talk to each other and make a story about life.

My personal problems and my environment call forth strong motivation.

I hope that all the things I feel will be well remembered as a very sincere and great value by all people. I think that a photograph is a great human document and a connection between the past and present.
